This is a list of notable chemical engineers, people who studied or practiced chemical engineering. The main list is those who achieved status in chemical engineering or a closely related field such as management or science. At the foot of the page is a list of people with chemical engineering qualifications who are notable for other reasons, such as actors, sportspeople and authors.

A chemical reactor is an enclosed volume in which a chemical reaction takes place. In chemical engineering, it is generally understood to be a process vessel used to carry out a chemical reaction, which is one of the classic unit operations in chemical process analysis. The design of a chemical reactor deals with multiple aspects of chemical engineering.

ABSTRACT. This work presents an experimental study of purification of a biogas by removal of its hydrogen sulphide (H_2S) content. The H_2S was removed by means of chemical absorption in an iron-chelated solution catalyzed by Fe/EDTA, which converts H_2S into elemental sulphur (S). Preparation of the catalyst solution and the results of biogas component absorption in the catalyst solution ...
