manufacturing planning and control pdf

Manufacturing resource planning (MRP II) is defined as a method for the effective planning of all resources of a manufacturing company. Ideally, it addresses operational planning in units, financial planning, and has a simulation capability to answer "what-if" questions and extension of closed-loop MRP. This is not exclusively a software function, but the management of people skills, requiring a ...

Manufacturing resource planning - Wikipedia

Business Planning and Control System (BPCS) is an Enterprise Resource Planning (ERP) software designed for an OS/400 system. BPCS is a series of software programs that are the largest software supplier for AS/400. BPCS, the acronym for the software, is pronounced as "Bee picks".
