Workshops on the future for libraries in Cambridgeshire. From August to October 2017, we started an informal discussion with library users and community groups on the future for libraries in Cambridgeshire through a series of workshops. To view comments shared with us from our workshops, please see our summary document below.

Library Services: developing our approach for the future

EIFL (Electronic Information for Libraries) works with libraries to enable access to knowledge for education, learning, research and sustainable community development.

A First Course in Linear Algebra is an introductory textbook designed for university sophomores and juniors. Typically such a student will have taken calculus, but this is not a prerequisite. The book begins with systems of linear equations, then covers matrix algebra, before taking up finite-dimensional vector spaces in full generality.

A First Course in Linear Algebra (A Free Textbook)

Public health has been defined as "the science and art of preventing disease, prolonging life and promoting human health through organized efforts and informed choices of society, organizations, public and private, communities and individuals". Analyzing the health of a population and the threats it faces is the basis for public health. The public can be as small as a handful of people or as ...

An online public access catalog (often abbreviated as OPAC or simply library catalog) is an online database of materials held by a library or group of libraries. Users search a library catalog principally to locate books and other material available at a library. In simple language it is an electronic version of the card catalog. OPAC is the gateway to library's collection.
