About the Research Perspectives Website and Project. This project will provide new ways of viewing EPSRC's ICT (Information and Communications Technology) portfolio to enable researchers, EPSRC staff and other stakeholders to better contribute to ICT strategy. The project is divided into two main stages.

### **Research Perspectives: tools for visualisation of**

Research always occurs in social, historical, political, and other contexts. We need to stop asking questions about reality and the laws of nature and start solving problems. Remember "mixed method/pragmatism would have a string without an epistemology and may also be lacking a theoretical perspective.

### **Research Perspectives Overview - Darleen Opfer**

PRINCIPLES AND PLANNING FOR RESEARCH16 Chapter objectives After reading this chapter you will be able to: • Distinguish between ontology and epistemology in research. • Distinguish between inductive and deductive methods. • Explain the different perspectives taken by positivism and interpretivism. • Describe the different research methodologies and the conditions for their selection.
