

rolf wideroe a pdf

Rolf Widerøe (11 July 1902 – 11 October 1996), was a Norwegian accelerator physicist who was the originator of many particle acceleration concepts, including the resonance accelerator and the betatron accelerator.

Rolf Widerøe - Wikipedia

Since Widerøe and his accelerator initiatives may not be very familiar to today's accelerator physicists, the following is a brief recapitulation of the man and his work. Rolf Widerøe was born in Norway in 1902, two years earlier than his brother Viggo, who became a

CI) - Fermilab | Internal Content

Rolf Widerøe (11 July 1902 – 11 October 1996), was a Norwegian accelerator physicist who was the originator of many particle acceleration concepts, [1] including the resonance accelerator and the betatron accelerator.

rolf wideroe : definition of rolf wideroe and synonyms of

2 A 707/A 707M – 02 (2007) 3.1.1 flakes – short discontinuous internal fissures attributed to stresses produced by localized transformation and decreased solubility of hydrogen during cooling after hot working. 3.1.2 linear surface imperfection (or indication) – an imperfection or indication with a length at least three times its width.

Rolf Widerøe – Life and Work (29 March 2018) – Indico

The Faraday law of electromagnetic induction for an arbitrarily moving charge is generalized and the expression for the force acting on the charge in an alternating magnetic field is obtained.

The Faraday Law of Induction for an Arbitrarily Moving Charge

The Norwegian, Rolf Widerøe, who obtained his degree in engineering in Aachen in 1927 by building the first operational linear accelerator, was a pioneer of this development. Widerøe is a multitasking person.

The infancy of particle accelerators : life and work of

by Rolf Widerøe [1] in 1927 while a graduate student at the University of Aachen. This precursor of today's linacs is depicted in Fig. 1, which appeared in Widerøe's dissertation. A few megahertz was a high frequency in the 1920s. Although I could not find a statement

Particle Accelerators for High Energy Physics A Short History

pdf Abstract – One evening, early in 1929, as I was glancing over current periodicals in the University library, I came across an article in a German electrical engineering journal by Wideroe on the multiple acceleration of positive ions.

In the footsteps of Rolf Widerøe: Nuclear Physics News

Other articles where Rolf Widerøe is discussed: linear accelerator: 11 years later, the Norwegian engineer Rolf Widerøe built the first machine of this kind, successfully accelerating potassium ions to an energy of 50,000 electron volts (50 kiloelectron volts).
