Self-Signaling and Prosocial Behavior: a Cause Marketing Experiment1 ... Ego utility derives from a consumer's posterior self-beliefs after ... In a signaling game, the principal can infer something about the agent's private information through the latter's actions.

Self-Signaling and Prosocial Behavior: a Cause Marketing

We test an information theory of prosocial behavior whereby ego utility and self-signaling crowd out the effect of consumption utility on choice. The data come from two field experiments involving purchases of a consumer good bundled with a charitable donation. Across experimental cells, we randomize the price level and the donation level. A model-free analysis of the data reveals nonmonotonic ...

Self-Signaling and Prosocial Behavior: A Cause Marketing

Signaling, beliefs, and prosocial behavior. [Zachary Jacob Grossman; University of California, Berkeley,] -- Giving is a major economic activity but little understood. Preferences defined over resource allocations alone cannot explain the sensitivity of giving to informational conditions such as the ...
