Neural Networks and Learning Machines - etsmtl.ca

An artificial neural network is a network of simple elements called artificial neurons, which receive input, change their internal state (activation) according to that input, and produce output depending on the input and activation.. An artificial neuron mimics the working of a biophysical neuron with inputs and outputs, but is not a biological neuron model.

Artificial neural network - Wikipedia

In recent years, deep artificial neural networks (including recurrent ones) have won numerous contests in pattern recognition and machine learning.

Deep learning in neural networks: An overview - ScienceDirect

Deep learning (also known as deep structured learning or hierarchical learning) is part of a broader family of machine learning methods based on learning data representations, as opposed to task-specific algorithms. Learning can be supervised, semi-supervised or unsupervised.. Deep learning architectures such as deep neural networks, deep belief networks and recurrent neural networks have been ...

BRANCH-AUTOMATION AND ROBOTICS

Un réseau de neurones artificiels, ou réseau neuronal artificiel, est un système dont la conception est à l'origine schématiquement inspirée du fonctionnement des neurones biologiques, et qui par la suite s'est rapproché des méthodes statistiques [1].. Les réseaux de neurones sont généralement optimisés par des méthodes d'apprentissage de type probabiliste, en particulier bayésien.

Netzwerk von künstlichen Neuronen - Wikipedia

Künstliche neuronale Netze, auch künstliche neuronale Netzwerke, kurz: KNN (englisch artificial neural network, ANN), sind Netze aus künstlichen Neuronen. Sie sind Forschungsgegenstand der Neuroinformatik und stellen einen Zweig der künstlichen Intelligenz dar.

Künstliches neuronales Netz - Wikipedia

Die Neuroinformatik ist ein Teilgebiet der Informatik und der Neurobiologie, das sich mit der Informationsverarbeitung in neuronalen Systemen befasst, um diese in technischen Systemen anzuwenden. Sie ist zu unterscheiden von der Computational Neuroscience, welche sich als Teilgebiet der Neurobiologie mit dem Verständnis biologischer neuronaler Systeme mittels mathematischer Modelle beschäftigt.

Neuroinformatik - Wikipedia

Искусственные нейронные сети (ИНС) - это системы, структура которых копирует структуру биологических нейронных сетей. Искусственные нейронные сети являются объектом исследования в области нейровычислительной информатики и представляют собой один из разделов искусственного интеллекта.
