World religions: number of members, growth rate, names of houses of worship, etc.

Religions of the world: numbers of adherents; growth rates

The terms Muslim world and Islamic world commonly refer to the unified Islamic community (), consisting of all those who adhere to the religion of Islam, or to societies where Islam is practiced. In a modern geopolitical sense, these terms refer to countries where Islam is widespread, although there are no agreed criteria for inclusion. Some scholars and commentators have criticised the term ...

Muslim world - Wikipedia

A global city, also called world city or sometimes alpha city or world center, is a city which is a primary node in the global economic network. The concept comes from geography and urban studies, and the idea that globalization is created, facilitated, and enacted in strategic geographic locales according to a hierarchy of importance to the operation of the global system of finance and trade.

Global city - Wikipedia

Located in the School of Public Health and Health Professions since 1999, CIRRIE facilitates the sharing of information and expertise between the U.S. and world-wide partners to improve the conditions of people with disabilities.
