Penn State Engineering: Inspiring Change, Impacting Tomorrow

The School of Engineering prepares students to serve the rapidly changing demands of a new century. We provide opportunities for practical work experience, international study and community service. Our graduates are equipped to deal with technical topics and with the challenges of practice in the future.

School of Engineering

Future Electronics Inc. is a distributor of electronic and electro-mechanical components headquartered in Pointe-Claire, Quebec. Founded in 1968 by Canadian billionaire Robert Miller, the company is one of Quebec's largest privately owned companies and is currently the fourth largest electronics distributor in the world. It operates in 169 locations in 44 countries in the Americas, Europe, Asia ...

Future studies or futurology is the science, art and practice of postulating possible, probable, and preferable futures and the worldviews and myths that underlie them. Futures studies seeks to understand what is likely to continue, what is likely to change, and what is novel. Part of the discipline thus seeks a systematic and pattern-based understanding of past and present, and to determine ...
