The Art of Logical Thinking - YOGeBooks

Critical thinking is the objective analysis of facts to form a judgment. The subject is complex, and several different definitions exist, which generally include the rational, skeptical, unbiased analysis, or evaluation of factual evidence. Critical thinking is self-directed, self-disciplined, self-monitored, and self-corrective thinking. It presupposes assent to rigorous standards of ...

K-level thinking refers to a class of logic problems in which all actors are perfectly rational and possess infinite intelligence. In other words, all actors are able to reason perfectly about their situation, and know that everyone else shares the same capability. Without further qualification, the term "logic puzzle" or "logic problem" usually refers to this type of situation.
