the ontological proof in pdf

An ontological argument is a philosophical argument for the existence of God that uses ontology. Many arguments fall under the category of the ontological, and they tend to involve arguments about the state of being or existing. More specifically, ontological arguments tend to start with an a priori theory about the organization of the universe. If that organizational structure is true, the ...

Ontological argument - Wikipedia

Ontological arguments are arguments, for the conclusion that God exists, from premises which are supposed to derive from some source other than observation of the world—e.g., from reason alone.

Ontological Arguments (Stanford Encyclopedia of Philosophy)

Ontology is the philosophical study of being. More broadly, it studies concepts that directly relate to being, in particular becoming, existence, reality, as well as the basic categories of being and their relations. Traditionally listed as a part of the major branch of philosophy known as metaphysics, ontology often deals with questions concerning what entities exist or may be said to exist ...

1. Ontological Naturalism 1.1 Making a Causal Difference. A central thought in ontological naturalism is that all spatiotemporal entities must be identical to or metaphysically constituted by physical [] entities. Many ontological naturalists thus adopt a physicalist attitude to mental, biological and other such —special— subject matters.
